"EUROCART" Universal Medical Cart

N.B. Product is subject to change without prior notice. The actual product might differ from the pictures here shown. Arm and additional shelf are optional accessories.

DESCRIPTION

LUMED *"EUROCART"* Universal Medical Cart is a product line for equipment intended for medical ambulatory and clinics.

1.5 mm thick steel structure that guarantees durability and reliability for customers.

Several extra accessories are available. Especially, the articulated arm does not have a simple cable holder function but
it allows a complete coverage thanks to the reclosable snap lids with an easy closure.

On the rear panel there is a compartment for daily use accessories (paper, electrodes, gel) and to support patient cable leads with reusable electrodes while you are using it. It is painted in order to be scratch resistant and very easy to clean.

It is equipped with four 70 mm diameter wheels and, two of them, with brake. The *EUROCART* is tested for stability on an inclined plane up to 12°.

It is supplied unassembled (assembly kit includes the necessary tools and instructions).
