

**"EUROCART" Trolley**

NB product subject to changes without prior notice. The actual product might differ from the pictures here shown. The arm is an optional accessory..

**DESCRIPTION**

LUMED "EUROCART" is a product line of carts for instruments and computers intended for medical ambulatory and clinics. Construction in steel 1,5 mm thickness which guarantees durability and reliability. A series of optional accessories is available. In particular, the articulated arm doesn't have a simple cable holder function but allows a complete cover thanks to internal snap reclosable lids with an easy extraction. On the rear panel there is a compartment for accessories of daily use (paper, electrodes, gel) and to support patient cable leads with reusable electrodes while not in use. They are painted with treatments suitable to make them particularly resistant to scratching and easy to clean. They are equipped with 4 wheels 70mm diameter, 2 of them with brake. The stability is tested on an inclined plane up to 12 °. They are supplied unassembled (assembly kit includes the necessary tools and instructions).
